VERSION CONTROL

Version	Summary of change	Date changed
V1	Published	November 2024
V2	Removed slings for Bleeding from practical assessment criteria	April 2025
V3	Removed Seizures from practical assessment criteria	June 2025
V3.1	Corrected assessment method for CPR topic within the unit syllabus.	July 2026
V4	Formal Qualification review. Secondary Survey and Chain of Survival, Spinal Injuries and knowing children's needs removed as separately-assessed MCQ topics (Secondary Survey, Spinal Injuries and knowing children's needs moved to PFA2). Updated content and practical assessment to reflect 2025 Resuscitation Council guidelines. See practical assessment criteria document for details. Updated unit/qualification specification template.	September 2026

QUALIFICATION OVERVIEW

QUALIFICATION DETAILS

Qualification title:	CTQ Level 3 Award in Paediatric First Aid
Qualification number:	610/5257/7
Grading:	Pass/Fail
Total qualification time (TQT) ⁱ :	12
Guided learning hours (GLH):	12
Operational start date:	01/02/2025
Qualification review date ⁱⁱ :	01/09/2029
Student age:	16+

STRUCTURE OF THE QUALIFICATION

The Level 3 Award in Paediatric First Aid is made up of two mandatory units, which must be achieved to gain the qualification. There are no optional units.

Whilst learners often study and learn at different rates, the estimated study time for each unit is:

Unit code	Unit title	Unit level	Unit TQT
PFA1	Delivering Emergency Paediatric First Aid	Three	6
PFA2	Further Knowledge and Skills in Paediatric First Aid	Three	6

ASSESSMENTS

The Level 3 Award in Paediatric First Aid is assessed through three assessments, all of which must be passed to achieve the qualification.

Unit	Assessment type	Duration	Pass mark	Grading
PFA1	Multiple choice examination	20 mins	7/10 (70%)	Pass/Refer
PFA2	Multiple choice examination	30 mins	7/20 (70%)	Pass/Refer
PFA1	Practical observation	With course time	Must pass all criteria	Pass/Refer

BLENDED LEARNING

This qualification can be delivered using a combination of distance learning and face-to-face classroom learning and assessment. The 'minimum' amount of classroom hours must be as detailed below with the remainder of the GLH having been completed by distance learning:

Minimum classroom time:	6 hours (1 day)
Maximum distance learning time:	6 hours

Distance learning must be completed before the face-to-face classroom session and all assessments must take place in the classroom.

Centres wishing to offer blended learning must seek CTQ approval of its e-learning materials.

STAFFING REQUIREMENTS

In order to deliver this qualification, centres must obtain centre recognition and qualification approval from CTQ, as set out on our website. Once approved, centres are required to maintain the following minimum staffing:

Minimum staff	Role	Qualification requirements	Responsibilities	Max learners
One	Trainer	Appendix 4 & 5	Delivery of qualification content	12
One	Assessor	Appendix 4 & 5	Assessment of the qualification	12
One	Internal Quality Assurer	Appendix 4 & 5	Quality assuring the assessment and verification of this qualification	N/A

NB There is no requirement for a separate assessor when delivering this qualification. Trainers can perform the role of both trainer and assessor providing they meet the below requirements for each role.

All Trainers, Assessors and IQAs must be approved by CTQ before working on this qualification. Each must hold the subject qualification at Appendix 4 and the relevant teaching, assessing or IQA qualification (or equivalent CPD training) at Appendix 5, keep an up to date log of their activity in that role, and provide evidence of CPD.

IQAs must also know the qualification's current requirements, understand the IQA role, observe delivery and assessment as part of sampling, and cannot quality assure a course they trained or assessed on.

RESOURCES, VENUE AND EQUIPMENT

Centres must use premises that are suitable, adequate and conducive to carrying out training and assessment, whether these are hired or in-house training rooms. They must also comply with all current legislation.

As a minimum, centres must make sure their venues, equipment and other resources include:

Resource	Requirement
Teaching/training venue	The venue must meet acceptable health and safety standards and have sufficient: size, floor surfaces, seating, writing surfaces, toilet facilities, ventilation, lighting, heating, access, exits, cleanliness, absence of distracting noise. Signage should be used to notify others that assessments are being carried out.
Audio visual (AV) equipment and training aids	Sufficient AV equipment and training aids to facilitate learning using varying teaching methods.
Resuscitation manikins (child and infant)	A minimum ratio of 1 manikin (of each age group) to every 4 learners If fewer resuscitation manikins, adjust learning hours/lesson plans accordingly to make sure learners are not disadvantaged.
AED trainers	A minimum of 1 AED trainer to every 4 learners. If fewer AED trainers are provided, adjust learning hours/lesson plans accordingly to make sure learners are not disadvantaged.
Bandages and dressings	Sufficient clean bandages, dressings and other items commonly found in a first aid kit to facilitate training and assessment.
Hygiene	Sufficient procedures to maintain hygiene when using resuscitation manikins and other training equipment.

ASSESSMENT STRATEGY

The Level 3 Award in Paediatric First Aid is assessed through a combination of assessments designed to test the appropriate skills, knowledge and understanding, as outlined below:

Assessment	Controls	Units covered	Rationale	Assessment details
Multiple choice examination 1	- Externally set - Externally marked - Internally invigilated - Externally spot checked	PFA1	Learner's practical abilities need to be underpinned by a base of knowledge about the role of the first aider, their responsibilities and basic principles of paediatric first aid. This knowledge is taught from a syllabus and assessed by an MCQ exam, derived from a bank of questions.	Duration: 20 minutes Pass mark: 7/10(70%) Grading: Pass/Fail Must be taken under examination conditions at the end of the training.
Multiple choice examination 2		PFA2		Duration: 30 minutes Pass mark: 14/20(70%) Grading: Pass/Fail Must be taken under examination conditions at the end of the training.
Practical observation	- Externally set - Internally marked - Externally verified - Simulation is required	PFA1 PFA2	Learners need to be able to demonstrate key practical skills in delivering paediatric first aid, for which the most valid assessment is an observation. Due to the risks to life, learners must correctly pass all the assessment criteria and if demonstration of a skill requires a complex sequence of actions each step in the sequence will be assessed.	The practical assessment is ongoing throughout the course with the trainer/assessor making learners aware of when they are being assessed and what they are required to demonstrate. Duration: within the practical course time Pass mark: all assessment criteria must be achieved Grading: Pass/Fail

NB 'externally' refers to CTQ, 'internally' refers to the centre

Appendix 1 & 2 sets out how the assessments are mapped to unit learning outcomes and content.

CONFIRMING IDENTITY

Assessments take place face to face at the training venue. Therefore, the responsibility of authenticating the learner's assessment evidence falls to the trainer/assessor.

Trainer/assessors must check each learner's identity against approved photographic identification at the start of the course, such as:

- a government issued ID
- other photographic ID card, e.g., employee ID card (must be current employer), student ID card, travel card etc.

ASSESSMENT LANGUAGE

This qualification must be assessed in English due to the need for learners to be able to complete a 999 call and communicate with their patients.

Assessment in British Sign Language (BSL) **may** be permitted for this qualification for the purpose of a reasonable adjustment.

Prior approval from CTQ is required before any assessment is delivered through BSL. Approval must be obtained by completing a request for reasonable adjustment.

Any request received will be considered in terms of viability and there may be charges depending on the work required to meet the request.

ASSESSMENT DELIVERY

Assessments take place during training, practical assessments throughout, MCQ exams at the end. The qualification and its assessments are graded pass/fail only, with no higher grades available. Learners must pass every assessment to pass the qualification.

Externally marked assessments are marked automatically by the CTQ system, using pre-agreed pass marks.

Internally marked (practical) assessments are marked by centre assessors against CTQ's criteria, with results submitted to CTQ within 10 working days for EQA or certification.

ASSESSING PRACTICAL TASKS

Learners must be aware they're being assessed and demonstrate skills unprompted, without referring to course materials.

Assessors must give clear guidance and feedback, use the Practical Assessment Criteria document and complete the Evidence Log, assess only against the stated criteria, let learners complete tasks uninterrupted (unless safety requires stopping them), refer and reassess anyone who doesn't pass first time, and record the outcome.

Comments are expected for referrals only, outlining why the assessment decision was made.

ASSESSMENT REGULATIONS

Assessments take place during the training course, so extensions and late submission do not apply. Standard CTQ regulations for this qualification:

	MCQ	Practical observation
Referral on first attempt	Failing to meet the pass mark will result in a refer grade. Learners using the online system will be offered a second attempt which is an adaptive assessment they will only be shown questions from topic areas that they failed against. Paper based must complete the full re-sit paper.	Failing the set practical assessment criteria in full, in the correct sequence independently will be referral.
Second attempt	One further attempt, same day. Referral on this attempt results in failure of the qualification.	One further attempt, within the duration of the classroom time on the day of the course. Referral on this attempt results in failure of the qualification.
Retake	Where a learner fails to achieve the qualification, they are permitted to take the course again. If a learner retakes the course after failing the qualification, CTQ may choose to recognise and credit any assessment components they previously passed, so they may not need to repeat those parts.	

INVIGILATION AND ADMINISTRATION OF EXAMINATIONS

Centres must administer and invigilate MCQ exams in line with the CTQ Controlled Assessment and Invigilation Instructions policy.

A learner may sit the MCQ on paper only for a reasonable adjustment or a technical failure. Trainers must ensure they have printed exam papers as a contingency for each course. Printed papers must be kept in sealed envelopes and stored securely.

Paper-based MCQs must be marked by the centre against the official mark scheme and are second-marked by CTQ.

STANDARD PERMITTED ASSESSMENT SUPPORT

Invigilators may also provide limited reading support during controlled assessments reading assessment questions and answer options aloud, verbatim in English where a learner cannot independently access written materials due to reading difficulty, language barriers, or other access needs.

This is permitted because the assessment tests first aid knowledge, understanding and practical competence, not reading ability or English language comprehension.

No prior CTQ approval is needed to use this support, but its use must be recorded on the invigilation report, and it must stay within the conditions set out in the CTQ Controlled Assessment and Invigilation Instructions policy.

CENTRE INTERNAL QUALITY ASSURANCE

Centres are required to implement quality assurance measures to ensure reliability and consistency of assessment decisions. This includes standardisation and verification of assessment decisions. Standardisation means putting borderline cases to assessors through peer review, shadowing, or video-based training sessions so they agree on the assessment decision. Verification means observing assessors, in person or on video, and sampling their evidence, to check they're making decisions correctly.

HSE guidance requires centres to have: a quality assurance plan; a competent individual responsible for QA, independent of delivery; an annual assessment of trainer/assessor skills; a course evaluation procedure; a mechanism for learner feedback; a complaints procedure; and assessment records for each learner, retained for 3 years and available to CTQ on request.

QUALIFICATION INFORMATION

ABOUT THIS QUALIFICATION

This qualification is for anyone who has a specific responsibility at in an early years setting to provide help to babies, infants and children in first aid situations. Learners will typically work alone or in an early years setting as:

- childminders
- nursery and pre-school workers
- sport and leisure staff
- crèche leaders.

All newly qualified entrants to the early years workforce (who have completed a level 2 and/or level 3 qualification on or after 30 June 2016), must also have either a full PFA or an emergency PFA certificate within three months of starting work in order to be included in the required staff: child ratios at level 2 or level 3 in an early years setting. This qualification meets the requirements of the PFA course as defined by the DfE.

The qualification meets the criteria for Paediatric First Aid training set out in Annex A of the Statutory Framework for the Early Years Foundation Stage document: “Criteria for effective Paediatric First Aid (PFA) training” as shown in Appendix 3.

A typical learner:

- is at least 16 years old
- is able to perform practical tasks at floor level
- has a minimum of Level 2 in literacy and numeracy or equivalent

QUALIFICATION PURPOSE

The objective of this qualification is to prepare learners for a first aid role in an early years setting, enabling them to deal with a range of first aid situations.

The qualification takes 12 hours to complete. It must be completed within 6 weeks.

This qualification has been developed to meet the requirements of:

- Ofsted (Voluntary Register)
- The Department for Education (first aid in schools, early years and colleges)
- Welsh Government National Minimum Standards for regulated childcare for children up to the age of 12 years
- Ofsted (Compulsory Register). For the purposes of complying with the Ofsted Compulsory Register please see the CTQ L3 Award In Paediatric First Aid (PFA).

ENTRY REQUIREMENTS

Available to learners aged 16 or over. There are no formal entry requirements, though we strongly recommend a minimum of Level 2 in literacy and numeracy or equivalent. Due to

the practical nature of the assessment, learners must be able to get to the floor unaided and demonstrate all required practical elements on their own, for example, effective CPR on a manikin at floor level for two minutes.

RECOGNITION OF PRIOR LEARNING

There are no opportunities for recognising prior learning to count towards this qualification.

PROGRESSION

Successful completion of this qualification will enable learners to be full paediatric first aiders in an early years setting under the Early Years Foundation Stage (EYFS).

Learners who find the qualification content interesting may progress to a wide range of first aid related learning and qualifications, in areas such as mental health first aid, forest school first aid.

REQUALIFICATION

This qualification is valid for a period of 3 years. Learners must retake before certificate expiry to remain qualified.

Annual refresher training is recommended by HSE, and learners should keep up with legislation and first aid best practice through ongoing CPD.

DELIVERING THIS QUALIFICATION

This qualification is delivered by CTQ's approved centres and consists of a mix of knowledge and practice. Blended learning combining e-learning and taught classroom sessions are permitted.

ENROLMENT, INITIAL ASSESSMENT AND QUALIFICATION REGISTRATION

Once a learner is enrolled on the course, the centre must carry out an initial assessment to confirm they're on the most suitable qualification and meet the entry requirements above, before registering them on the qualification.

At this point, centres must also give CTQ the dates, times and venues of the course running, so CTQ can carry out EQA activities to assure that assessments are being carried out correctly.

TIMESCALES FOR COMPLETION

Once enrolled, learners are expected to complete the qualification within 6 weeks in blocks of learning that are a minimum of 2 hours each.

CERTIFICATION

CTQ issues verified results and certificates to the approved centre, who forward them to learners. Learners should contact the centre if they haven't received these within 28 working days. Where a centre is sanctioned or withdrawn, CTQ reserves the right to send certificates directly to learners.

TEACHING THE QUALIFICATION CONTENT

It is a DfE requirement that the training and assessment should be at least 12 hours (not including breaks) over a minimum period of two days (each taught session must be a minimum of two hours).

Centres must create their own delivery plan which is checked at qualification approval, with a scheme of work covering the required content and learning outcomes within the minimum GLH, designed around learners' needs so they're ready for assessment, and identifying opportunities for formative assessment.

Suggested resources/textbooks are listed with each unit.

CENTRE ASSESSMENT STANDARDS SCRUTINY (CASS)

CTQ operates a risk-based model of ongoing monitoring, support and feedback for approved centres, combining a qualification risk rating and a centre risk rating to decide the frequency and type of external quality assurance (EQA) activity.

This qualification is rated **medium risk**.

Practical assessment relies on trainers/assessors being subject experts, assessed against the practical assessment criteria. To assure this, CTQ:

- Checks all trainer/assessors have the correct qualifications and experience at qualification approval
- Requires centres to notify CTQ of new trainer/assessors before they deliver or assess
- Monitors staff qualification expiry dates, and withdraws permission to deliver/assess if a qualification lapses
- Trains trainers, invigilators and assessors before they deliver the qualification

Because centre assessors make the assessment decisions, practical assessment is also subject to external verification:

- New centres and those with a high risk rating are monitored continually, including sampling assessment evidence
- Once CTQ is satisfied standards are being met, a centre's risk rating is reduced and it may mark and certificate without prior EQA sampling
- All approved centres receive a minimum of two interactions a year

NB Centres should allow for additional time for the issue of certificates where assessment decisions are being verified.

POLICIES

Delivery of this qualification must comply with all CTQ's policies including Reasonable Adjustments and Special Considerations, Enquiries and Appeals, Malpractice and Maladministration, Controlled Assessment and Invigilation Instructions.

Full current versions are available on the CTQ website.

MANDATORY UNIT

PFA1: DELIVERING EMERGENCY PAEDIATRIC FIRST AID

Level	3
Guided Learning Hours (GLH)	6
Sector Subject Area (SSA)	Health and social care

UNIT SUMMARY

This unit will provide learners with the understanding of how to assess an emergency situation and prioritise what action to take, and the skills required to provide emergency first aid for babies, infants and children. Learners will have basic skills in providing first aid for unresponsive casualties, seizures, choking, bleeding, hypovolemic shock and anaphylaxis.

LEARNING OUTCOMES

1	Understand the role of the paediatric first aider
2	Assess a range of paediatric first aid situations in order to provide emergency first aid
3	Provide appropriate paediatric first aid for a range of emergency situations and casualties

A full and detailed teaching syllabus and assessment is available to approved Centres only.

MANDATORY UNIT

PFA2: FURTHER KNOWLEDGE AND SKILLS IN PAEDIATRIC FIRST AID

Level	3
Guided Learning Hours (GLH)	6
Sector Subject Area (SSA)	Health and social care

UNIT SUMMARY

Following on from PFA1, this unit provides learners with comprehensive Paediatric First Aid knowledge and skills. Learners will learn how to provide first aid: acting safely, promptly and effectively for injuries to bones, muscles and joints, the spine, or eye, burns and scalds and sudden poisoning. They will know how to recognise the presence of major illness (including asthma, diabetes, meningitis) and provide appropriate first aid.

LEARNING OUTCOMES

1	Know how to recognise the presence of illness and injury
2	Assess a range of paediatric first aid situations in order to provide first aid
3	Provide appropriate first aid in a range of situations, for casualties with differing conditions

A full and detailed teaching syllabus and assessment is available to approved Centres only.

APPENDIX 4 – SUBJECT SPECIFIC QUALIFICATIONS FOR CENTRE STAFF

All Trainers, Assessors, Internal Quality Assurers and External Quality Assurers must have occupational knowledge and competence in First Aid.

This may be evidenced by:

- Holding an in-date **Paediatric First Aid** qualification issued by:
 - an Ofqual/SQA Accreditation/Qualifications Wales/CCEA Regulation recognised Awarding Organisation/Body
 - a Voluntary Accreditation Scheme (such as a recognised trade/industry body)
 - St John Ambulance
 - British Red Cross
 - St Andrews First Aid
 - Independently Recognised Training Centres
- Or a qualification at an equivalent or higher level to Paediatric First Aid qualification, which must be mapped.
- Or Current registration as a Doctor with the General Medical Council (GMC)ⁱⁱⁱ
- Or Current registration as a Nurse with the Nursing and Midwifery Council (NMC)³
- Or Current registration as a Paramedic with the Health and Care Professions Council (HCPC)³

APPENDIX 5 – STAFFING REQUIREMENT – ACCEPTABLE EVIDENCE

This list is not exhaustive but provides a guide to acceptable training and/or assessing qualifications. Trainers who also assess learner competence must hold a qualification (or separate qualifications) to enable them to perform both functions.

Assessors who do not hold a formal assessing qualification may alternatively attend First Aid Assessor CPD Training with an Awarding Organisation.

Qualifications suitable for Internal Quality Assurance

This list is not exhaustive but provides a guide to acceptable IQA qualifications.

IQAs who do not hold a formal IQA qualification may alternatively attend Internal Quality Assurance CPD Training with an Awarding Organisation.

- L&D Unit 11 Internally Monitor and Maintain the Quality of Workplace Assessment SCQF Level 8 (SQA Accredited)
- Level 4 Award in the Internal Quality Assurance of Assessment Processes and Practice
- Level 4 Certificate in Leading the Internal Quality Assurance of Assessment Processes and Practice
- Conduct the Internal Verification Process SCQF Level 8 (SQA Unit)
- Regulated Qualifications based on the Learning and Development NOS 11 Internally Monitor and Maintain the Quality of Assessment
- V1 Conduct Internal Quality Assurance of the Assessment Process or D34 Internally Verify the Assessment Process
- Internally Verify the Assessment Process SCQF Level 8 (SQA Unit)

ⁱ Total qualification time is the number of notional hours it takes a typical learner to achieve the full qualification and is made up of two elements:

- the minimum number of guided learning hours - the number of hours spent under the immediate supervision or guidance of a tutor
- the number of hours spent on preparation, studying and the assessment that is non-guided

ⁱⁱ The qualification review date is the date by which we will have carried out a review of the qualification. If we make a decision to withdraw a qualification, we'll set an operational end date (last date for registration/enrolment). The last date for certification will be three years from the operational end date.

ⁱⁱⁱ Registered healthcare professionals must act within their scope of practice and therefore have current expertise in First Aid to teach/assess the subject.
